

## CALIX SEAT COVERS

### Tailor made solutions

There might be a need for a protection of the seats in a vehicle. Dirty working cloths, tools, etc, and high frequency of usage, wear hard on the upholstery. When the original seat cover is under tough conditions, it gets dirty and maybe also tears apart, the padding in the seat may even be destroyed whereby both comfort and value of the vehicle will decrease.

The solution is tailor made seat covers from PeBe, mounted in the vehicle preferably when the vehicle is brand new.

In addition to the protective effect our seat covers frequently improve the interior look of a vehicle!

There are many different types and designs of seat covers in our portfolio.

PeBe develop customer and vehicle specific solutions for the OEMs, all according to the specifications and needs from our customer as regards material, design, function and other requirements.

### Perfect fit

The fit of the cover is extremely important if it is to stand tough conditions for many years. Our protective seat covers have a precise fitting to each seat in almost all vehicles. Each seat model also needs specific mounting solutions, and we present smart instructions for all applications to save time and reduce costs.

Interior with seat covers, design Stark

## Activity cover - A new concept of tailor made seat covers

### Seat protection with quick mounting

Activity cover is developed for the active people that use the vehicle for many different purposes and will keep the seats away from the dirt!

Activity cover gives a good protection against dirt and at the same time gives a high quality feeling that matches the quality level of the vehicle.

Activity cover is measured and constructed after each model of seat which gives a unique product for only that vehicle. Activity cover will be designed and developed for the specific interior line of the vehicle. Material choice and colours to be chosen. Textile, artificial leather etc. Mounting time is short and Activity cover is easy to mount and demount. Activity cover do not influence on the the side airbags. It is easy to store in the vehicle. Activity cover takes minimum space when not in use, and shall always be available in the vehicle.

### Tailor made textile floor mats

PeBe produces and markets a range of various accessories in textile, artificial leather or genuine leather, for protection, storage and safety. Measurement and production also includes tailor made floor mats for commercial vehicles, construction machines etc. Each model is unique for the cabin and the numbers of pedals.
