

## VACUUM-FORMED TRUNK LINERS AND ROOF BOXES

### OEM trunk liners and other storage solutions

Autoform is the leading manufacturer of trunk liners in Europe. The product range also includes trunk and tool boxes as well as frunk liners (for the front storage area in electric vehicles).

The trunk liners have a perfect fit for each vehicle model and are designed according to specifications from the OEMs. Any market need can be met thanks to experience of all types of recyclable materials, even Bio ones, and the disposition of modern production equipment including completely automatic lines for higher volumes.

Autoform has in-house design and manufacturing of tools, which enable quick, flexible and cost-effective supply. All materials used are recyclable and will gradually be supplemented with Bio materials under development together with The Royal Institute of Technology in Stockholm ("KTH")

Autoform is certified according to IATF 16949, ISO 14001, CCC and ISCC.

## Roof boxes

A roof box is the very best way to increase a vehicle's loading capacity. Calix and Carbox roof boxes, produced by Autoform, are available in various models from short city boxes to long ski boxes, to meet all possible requirements.

All roof boxes from Autoform are developed and manufactured in Sweden by recyclable ABS plastics, which are durable and temperature- and UV resistant. All boxes have central locking and Dual Opening (possible to open from both sides).

The premium product, The Nordic Loader, has a streamlined design that follows the contour of the vehicle and gives the impression being integrated with the vehicle. The double shell construction gives a rigid and solid feeling and creates, together with the patented Safety Nose, superior load restraint characteristics.

The Urban Loader is intended to be constantly fitted on the vehicle when folded and vertically expanded when loaded. It is slim and stylish in its compact version. It holds up to 500 liters and can take almost all types of child carriages on the market. Why not add an Urban Loader instead of changing to a bigger car when the family grows?

The H-family consists of a series of boxes with various measures and volumes. All Autoform boxes are equipped with handy safety nets for easy loading and anchoring of luggage.

Autoform also produces advanced components for e.g. the construction equipment and recreational vehicle industry.
